DAVIS GUEST HOME
Personalized Residential Care

FAMILY & FRIEND VISITATION GUIDELINES

Welcome to Davis Guest Home Visiting hours is from 8am to 8pm

At Davis Guest Home, we value the important role that family members, friends, and other supportive individuals play in the lives and well-being of our clients. We are happy to welcome you into our homes and appreciate your partnership in helping us maintain a safe, comfortable, and respectful environment for everyone.

To help us protect our clients, their belongings, and the safety of the home, we kindly ask visitors to assist us with the following:

COORDINATING YOUR VISIT

Please coordinate visits with the House Manager or Administrator whenever possible. This helps our team make sure the client is available and that the visit does not interfere with appointments, medications, meals, activities, or other scheduled services.

CAFFEINATED BEVERAGES

We kindly ask that caffeinated beverages not be brought into the home. Some individuals may be sensitive to caffeine or may have difficulty managing their caffeine intake. Caffeinated products can also become items that are traded or shared. This guideline helps us maintain consistency and protect clients from situations where they may feel pressured or taken advantage of.

FOOD, SNACKS & DRINKS

We appreciate that families and friends may want to bring a favorite snack, meal, or drink. Because storage space is limited, please bring one serving or a reasonable amount intended for the visit rather than larger quantities that would need to be stored. Please check with house manager or Administrator before leaving any food or drink at the home.

MONEY FOR CLIENTS

If you would like to provide money to a client, please give the funds directly to a staff member so they can be properly documented and added to the client's Personal and Incidental Needs (P&I/PNI) funds. This process helps safeguard the client's money and maintain accurate records.

ITEMS FOR THE CLIENT'S ROOM

We are happy for clients to personalize their rooms and have belongings that are meaningful to them. Before bringing furniture, storage containers, large items, appliances, or multiple personal belongings, please coordinate with the House Manager or Administrator. This helps ensure adequate space, compliance with facility storage practices, and clear pathways and exits for fire and mobility safety.

TAKING A CLIENT OUT OF THE FACILITY

We encourage appropriate community and family involvement. If you plan to take a client away from the facility in your vehicle, please coordinate the outing at least 7 days prior to leaving the home. Staff will need the information listed below so the pass request can be completed, and any required conservator or authorized representative approval can be obtained.

- Driver's license information
- Current vehicle registration
- Current proof of automobile insurance
- Contact information for the person taking the client
- Destination and anticipated return time
- Any required conservator or authorized representative approval (Please give us a minimum of 7 days to obtain approval)

THANK YOU FOR PARTNERING WITH US

Our goal is not to make visiting difficult. We want family members and friends to feel welcome and remain an important part of our clients' lives. These guidelines help us balance meaningful relationships with the safety, rights, and well-being of everyone who calls Davis Guest Home their home.

If you have questions or would like to arrange something special, please speak with the House Manager or Administrator. We are always happy to work with you.
